

Barry Robinson

Instructor - Computer Information Technology
Lethbridge Polytechnic
3000 College Dr S,
Lethbridge, AB T1K 1L6
21/11/2024

To Whom It May Concern,

I welcome the opportunity to provide a personal reference for Surya Timsina. As an instructor in the Computer Information Technology program, I have found him to be a dedicated and talented student. Having had the privilege of teaching Surya multiple subjects he has consistently demonstrated exceptional problem-solving skills, technical proficiency, and a strong commitment to learning. Surya consistently displays a deep understanding of fundamental concepts and leverages that with his creative approach to solve challenges often experienced with technology. He also extends valuable insights during discussions and is consistently involved with those around him.

Surya's proactive approach to learning and teamwork extends beyond academics. His participation in group projects, such as designing a system for "Tourism Lethbridge," highlights his ability to work collaboratively, manage complex tasks, and deliver impactful solutions under tight deadlines. Surya's leadership qualities and enthusiasm for continuous improvement have been evident throughout his time in the program.

I am confident that Surya's skills, passion for technology, and drive to succeed will make him an asset in any professional setting. Please feel free to contact me at barry.robinson@lethpolytech.ca or 403-795-4582 if you require further information.

Sincerely,

Barry Robinson
